Reported Group Profit After Tax

Reported Profit Adjustments

	2015 NZ\$000	2014 NZ\$000
Reported profit after tax	79,148	78,252
Disposal of investments		
Gain on sale of Subsidiaries to Coda	(5,013)	0
Fair value gain recognised on the sale of 49.9% shareholding in Timaru Container Terminal Limited	(4,731)	0
Loss on disposal of investment in MetroBox Limited and Cubic Transport Services Limited	1,135	0
Total	(8,609)	0
Profit and loss impact of revaluation of property, plant and equipment		
Impairment of property, plant and equipment on revaluation, net of tax	1,579	0
Total	1,579	0
Impairment of goodwill		
Impairment of goodwill in Quality Marshalling	6,221	0
Impairment of goodwill and MetroBox Limited	668	0
Total	6,889	0
Total underlying profit after tax	79,007	78,252

NEW ZEALAND'S

Port for the Future >>>

2015 Asset Revaluation

	\$ million
Land	26.0
Buildings	3.3
Wharves/hardstanding	52.0
Channels	0.2
Total	81.5

The increase in asset value will result in an increase in depreciation of approximately \$1.7 million from FY2016.

(Tapper Transport / Priority Logistics / MetroPack / MetroBox / Dairy Transport Logistics – Formed 1 May 2015)

NEW ZEALAND'S

Port for the Future >>>

Coda LP

- Formed to drive down the landside cost of transporting containers to and from ports
- Moves over 5.5 Million tonnes and over 300,000 containers per annum
- At the peak, responsible for 900 road and rail movements per day
- Partners with over 60 prequalified logistics providers
- Large user of KiwiRail
- Operates a large intermodal freight hub at Savill Drive – Auckland

NEW ZEALAND'S

Port for the Future >>>

Coda TSF

Goods transported from Auckland to Palmerston North in TSF

TSF specifically designed to fit two pallets of milk powder high and fit through tunnels in KiwiRail network

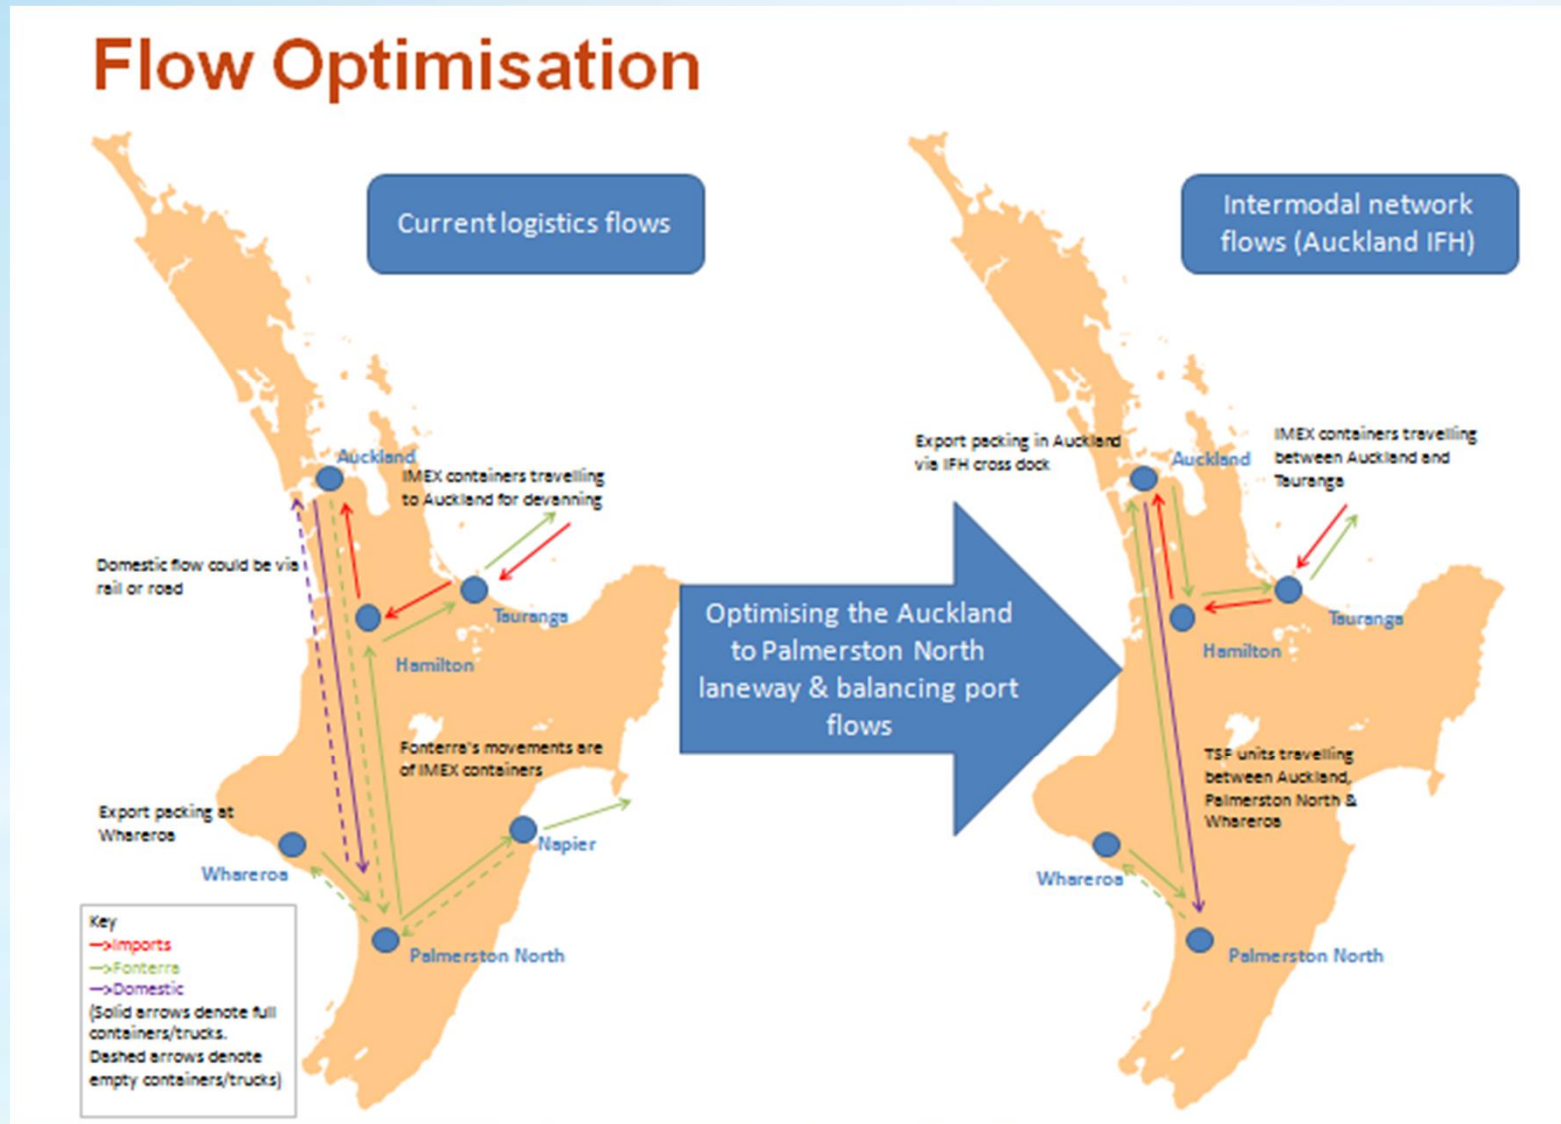

TSF loaded with Milk Powder for return trip to Auckland (30% more utilisation)

NEW ZEALAND'S

Port for the Future >>>

Significant Strategic Moat Channel Deepening and Widening

Terminal Capacity

Ports of Auckland Claim

- Port of Tauranga doesn't have the capacity

Facts

- In POAL's submission to Proposed Auckland Unitary Plan "*Port of Tauranga could therefore theoretically absorb Auckland cargo in the short and medium term, if POAL were constrained.*"
- Utilising POAL's capacity calculations of 48,780 TEUs per ha, POTL has 3,512,160 TEU capacity (we currently handle 850,000 TEUs)

NEW ZEALAND'S

Port for the Future >>>

More Trucks on the Road

Ports of Auckland Claim

- *“Shipping your freight through far-away ports has lots of problems. Like thousands more trucks on the road and the need for significant investments in both infrastructure and port facilities”*
- *“Carbon emissions will increase”*

Facts

- 99% of containers imported or exported through MetroPort will be on trains to South Auckland, actually reducing truck movements through Auckland CBD
- POTL \$350 million capital expansion programme to be big-ship capable - will be completed by FY17
- Total supply chain carbon emissions will decrease

NEW ZEALAND'S

Port for the Future >>>

MetroPort Rail Capacity Stage Three

TEU Daily Capacity Under Growth Scenarios via Increased TEU Capacity per trip Stage 3 - Future Capacity

Additional loops, redevelopment of terminals and rolling stock will be required.

Detailed planning required for optimal route transit times, terminal and track infrastructure, and equipment utilisation.

Rail Not Suitable

Ports of Auckland Claim

- *“Much of the cargo between Northport / Auckland and Port of Tauranga would not be suitable for rail (due to weight and dimension and cargo care limitations)”*

Facts

- With the exception of glass, we are not aware of any potential cargo that is not suitable for rail
- Rail is actually better suited to heavy cargo

NEW ZEALAND'S

Port for the Future >>>

Northport Does Not Have Capacity

Ports of Auckland Claim

- *“Northport would be required to expand the port across sensitive beach, residential, and marine areas”*

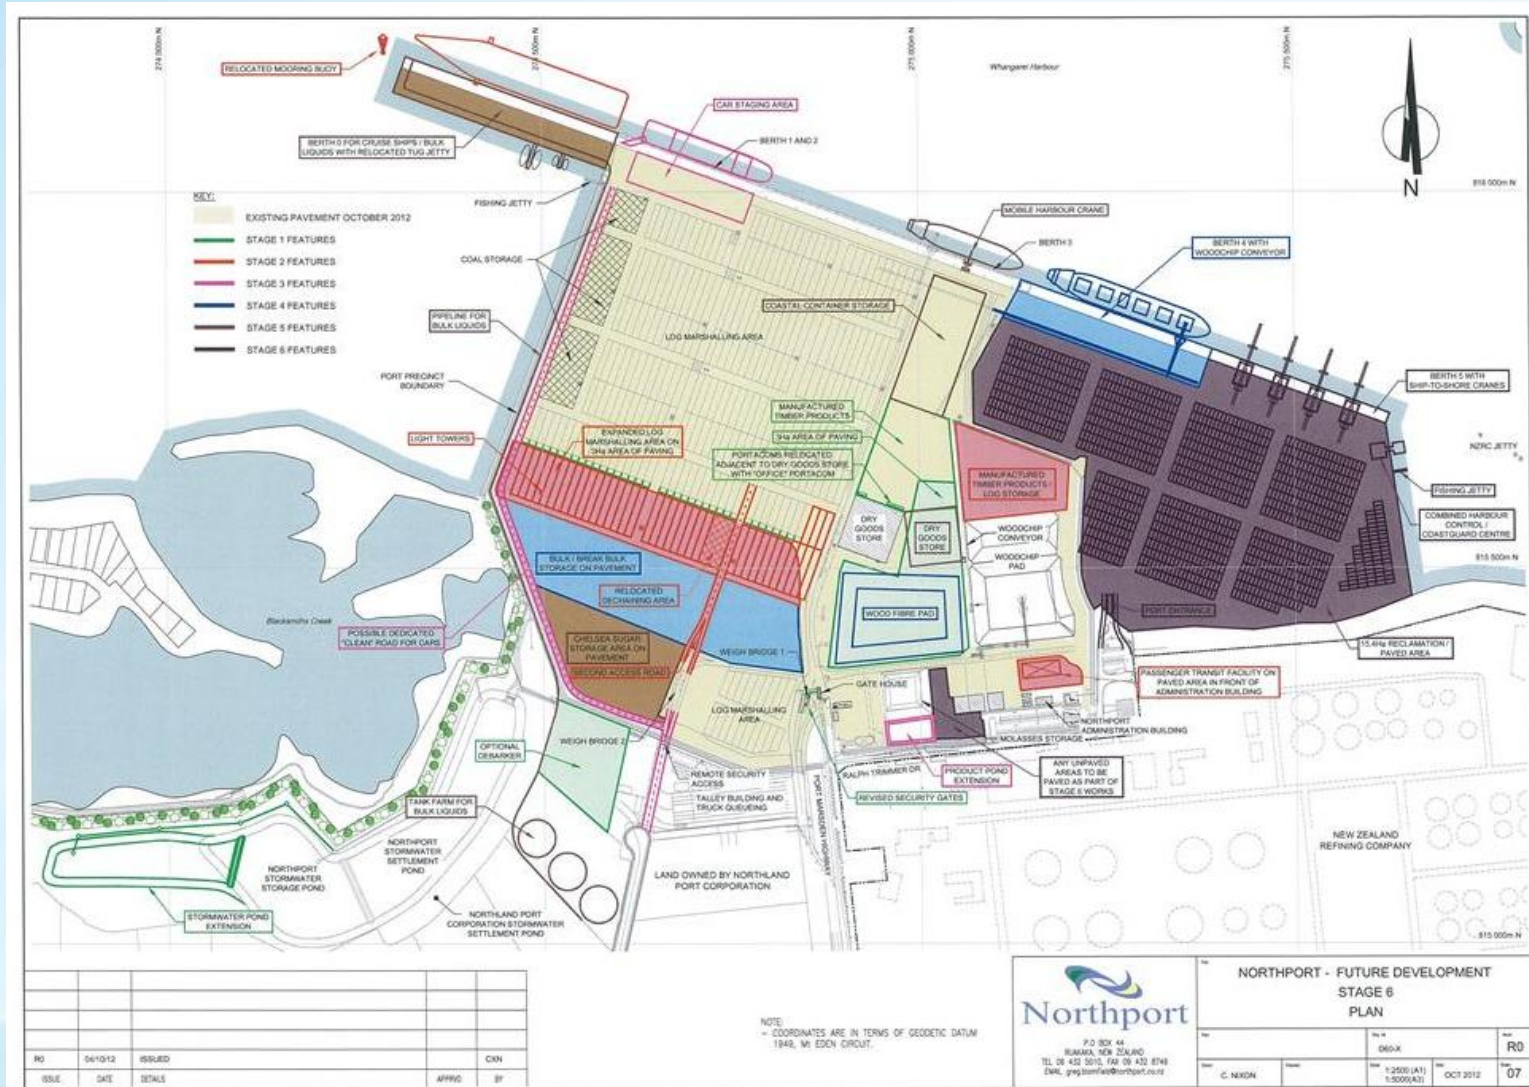

Figure 7: Potential Northport expansion required to replace the Port of Auckland's current and consented container terminal berthage

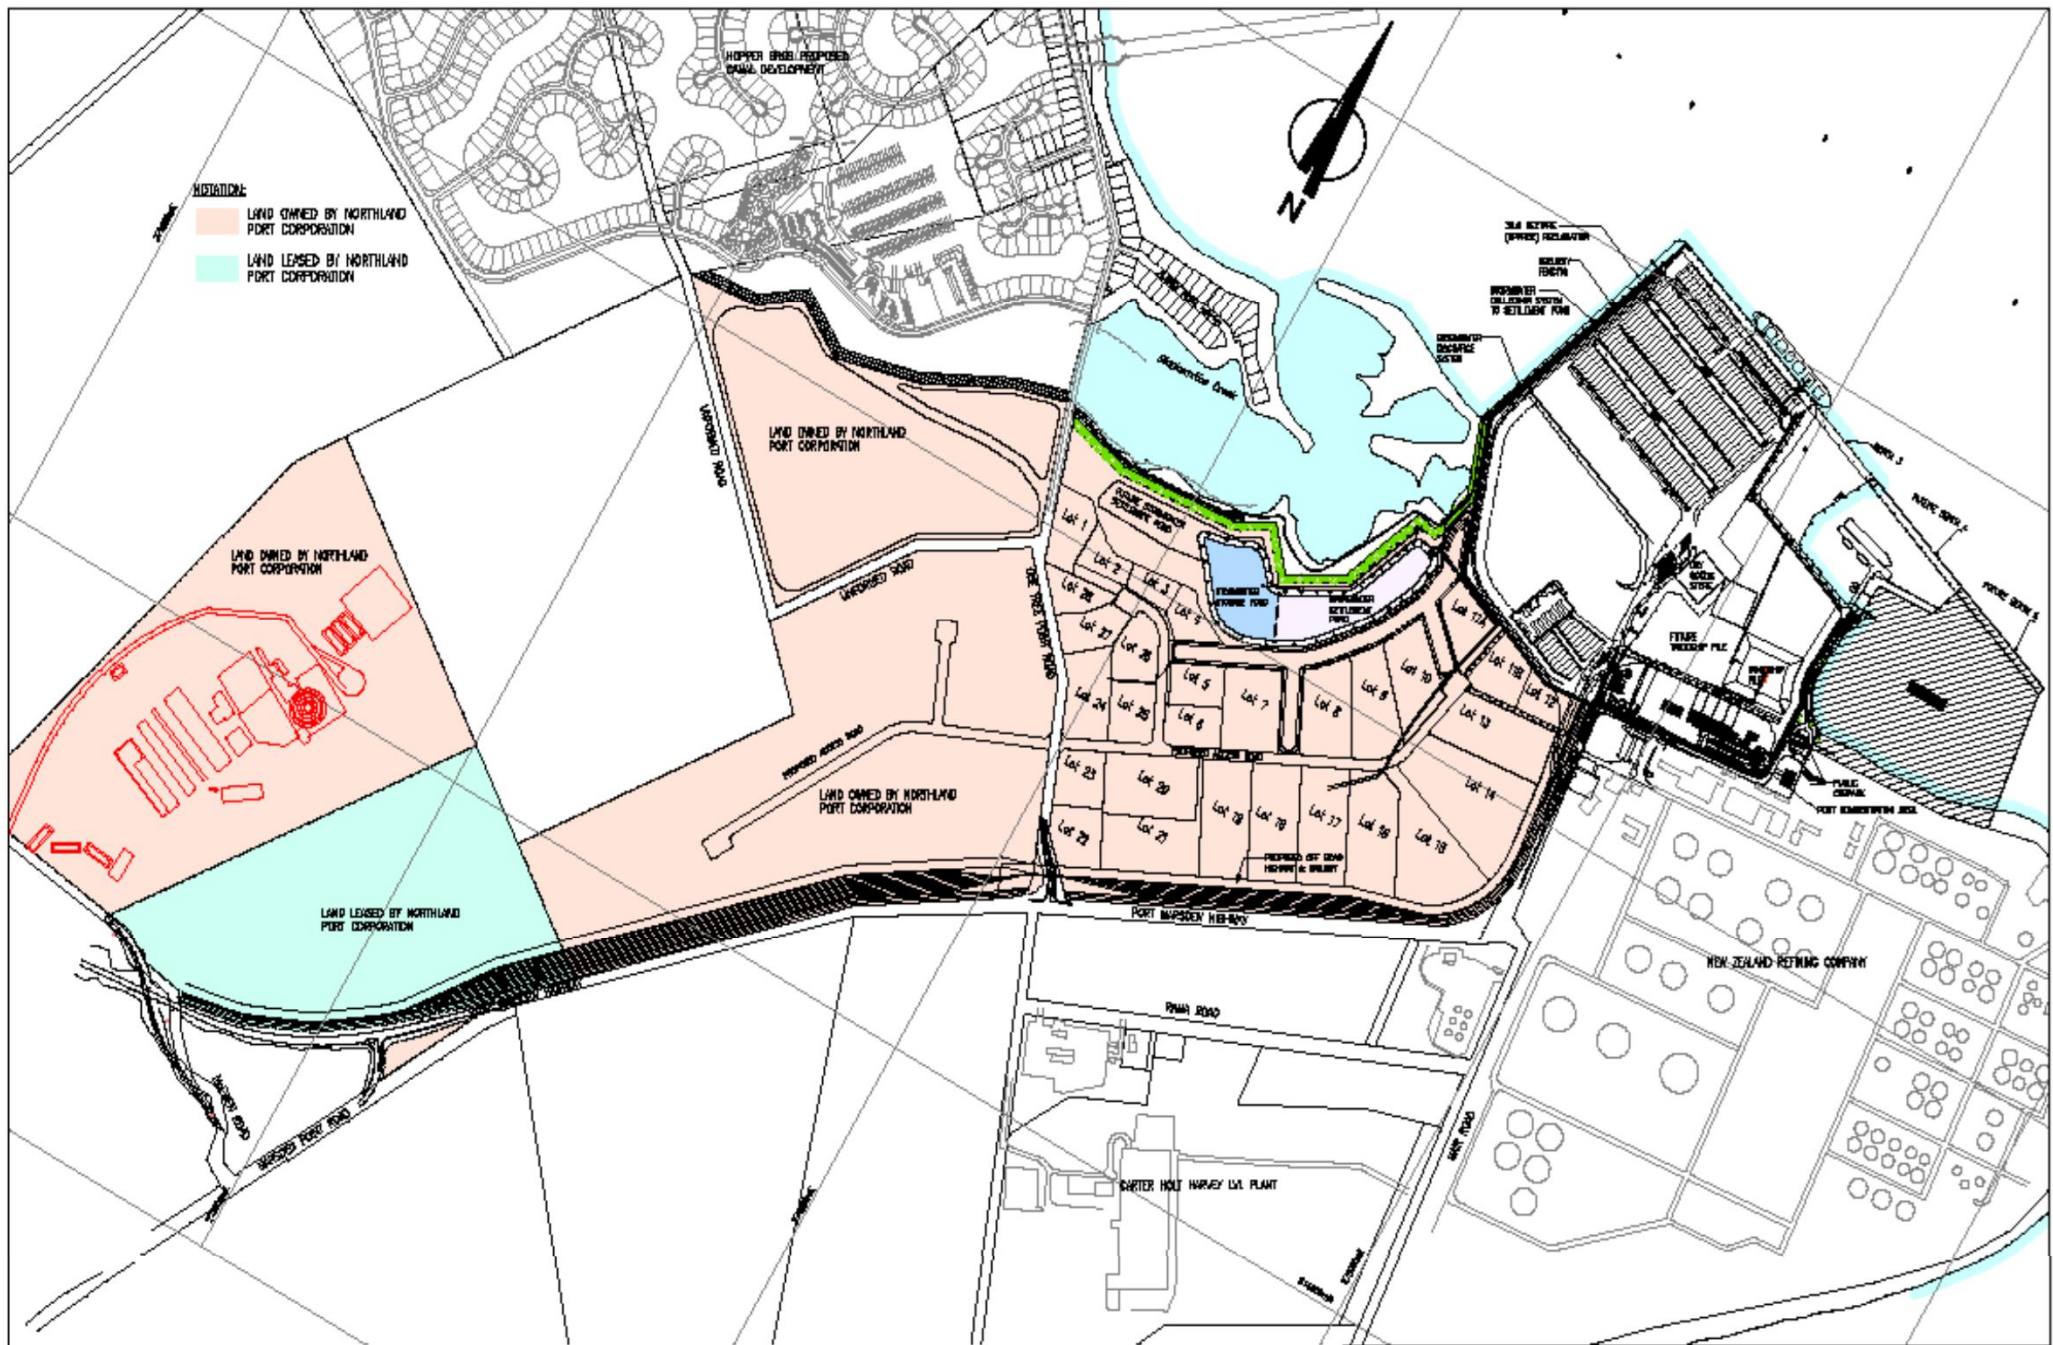

Facts

- The following confidential slides show Northport's expansion strategy
- Further comment should be sought from Sir John Goulter (current Northport Chairman)
